

Mike Harris Outdoors

Hunting season is just about upon us again. We will be able to shoot 2 Canada Geese per day per man, including the guide. I still have all the best farms I have had, so shooting should be just fine. I may also be doing some late season Snow Goose hunting this year. Also I may have a few limited late season Canada goose hunts in western MD. This is the second year for the 2 farms I have gotten near Frederick, MD so we may try a few hunts on them. As you remember, SNOW stopped us from doing anything after the regular Canada Goose season last year. We will just have to see how it goes this year.

We had another excellent year last year with a 97% success with our limits. I expect the same for this year as I have the same farms and there are plenty of geese.

As has been the case for a few years now, I am counting on you, as loyal hunters and friends to book at least your normal amount of days with any newcomers more than welcome (and needed!). I realize the economy hasn't fully recovered but without your continued support I could not continue to bring us together for our annual ritual, which I know we all look forward to so much each year.

Please call ASAP after you receive this letter to book your trips to help minimize any confusion and help me to coordinate farms and guides to bring you the best we can possibly do to make your hunts successful. I am anxiously waiting for your calls and meeting you early each morning for another year of hunting Geese.

Best Regards, Mike Harris
